Quickly Customize

- ▶ Include custom fields, tables and modules on the fly
- ▶ Tailor your BI solution in minutes, not hours or days

Secure, Affordable, and Fast

- ▶ Easily distribute reports and analytics internally and to the field
- ▶ Affordable packages that include unlimited users
- ▶ Get started in days, not weeks or months

Jet Reports

for Microsoft Dynamics AX

Jet Enterprise for Microsoft Dynamics™ AX delivers a fast, flexible data warehousing automation and business intelligence platform for Power BI, mobile dashboards, and reports inside Excel and on the web.

Database Consolidation

Access and consolidate data from AX and multiple business databases.

Reporting in Excel

Directly from your database, data warehouse, or cubes – no copying and pasting.

Financial Reporting Made Easy

Balance and budget data from any GL account.

Prebuilt Dashboards and Reports

Instant success and with prebuilt dashboards and reports that work out of the box with Dynamics AX.

Mobile and Web

Quickly and securely share information - access reports and/or dashboards from any device.

Multi-Company Consolidation

Seamlessly merge data from separate companies in a single report.

Schedule and Automate Reports

Save time by automating your report distribution.

Business Analytics and Dashboards

Quickly see trends, discover relations and identify issues.

Data Management

Sharing, version control, report permissions and search capabilities.

Fast Integration with Power BI

Build impactful visualizations in minutes.

Faster Report Building

A permanent clipboard to save Excel and report logic you repetitively use.

Instant BI and KPIs

Customizable cubes for Sales, Finance, Inventory, Purchasing, AP and AR already built for Dynamics AX.

Quick Customization

Drag-and-Drop customization of data warehouse and cubes.

Advanced Security

Additional layer of control over who sees your data.
